

Aeroflight Aviation and Evektor New Zealand are proud to introduce - the Evektor Sportstar

At present over 1000 of these are operating worldwide with around fifty in New Zealand and Australia.

These aircraft are popular as glider tugs

The Sportstar is a Light Sports Aircraft able to be registered as LSA or microlight category. It has all metal construction, Rotax 912 powerplant, and superb flying characteristics

David Marriott – CFI of Nelson Pilot Training operates 2 examples registered as LSAs on flight-training. David is touring the country in ZK-CGM and will be bringing the aircraft for you to view and try out. This model is equipped with a tow hook and is approved to tow gliders of up to 700kgs

We will be flying in to your area and arrive at NZMT

Matamata on Sunday March the 24th ETA 2:30 pm
