

## BOOK LAUNCH

This is the book for anyone who ever flew or who ever dreamed of flying.

During three decades in the RNZAF, Iggy Wood took to the sky in gliders, Harvards, Vampires, Devons, Airtourers, Strikemasters, Skyhawks and Macchis. From time to time, he also flew a desk. Iggy's anecdotes about the people, places and planes he encountered during his RNZAF career are silly, sad or serious - and may well have become embellished over time. *Iggy's Air Force Tales* is a 164 page collection of stories, with a foreword by Air Cdre (ret'd) Stewart Boys and first-hand accounts from guest contributors.

Please join us for a drink and more flying stories  
to celebrate the launch of

*Iggy's Air Force Tales*
